Snow White Synopsis

As our story begins, Snow White is dancing happily in the garden outside the Palace. The Prince notices her, she gets frightened and leaves. The Queen, inside the Palace, discovers that she isn't the most beautiful in the land and plots with her syncophants (assistants) on how to kill Snow White.

In the forest, we see that the Huntress couldn't kill Snow White, but has left her in the Forest. The Angel comes to rescue Snow White and decides that she will be safe with the Dwarfs.

The Dwarfs are very excited to have a guest to take care of them and happily go off to work. When they return, they find that Snow White has been "killed". They mourn and prepare for the funeral of their friend. BUT, the Prince appears, kisses Snow White, and she awakens. They dance together and go off to celebrate.

Our story comes to an end with a party celebrating the happy couple.

Thank you to all of my parents and students, past, present, and future for helping make this career possible. A big thank you also goes to all of my instructors. You are the best and I love you all. Hopefully, we will have many more years together. I hope to have all of my students back in the fall for class.

we dance for tears,
we dance for madness,
we dance for fears,
we dance for hopes,
we dance for screams,
we are the dancers,
we create the dreams."
