CINDERELLA

Our version of this story ballet, being done by our students, is told in four scenes. The first scene shows a sad Cinderella who is missing her mother and remembering her through her shawl and pictures. Her stepmother and stepsisters fight over the shawl, and force Cinderella to wait on them. A beggarwoman appears and everyone except Cinderella ignores her. When the announcement comes that the prince is having a ball, the stepmother makes Cinderella do everything for her and the stepsisters.

Scene 2 is in the Land of the Fairies. The fairy godmother appears and tells Cinderella that she will go to the ball with the things that the season fairies bring her. Pumpkins and mice bring her coach and off she goes.

Scene 3 is at the Ball in the Palace. The prince is having a great time and when Cinderella appears, he is enchanted by her beauty. Everyone has a good time watching the entertainment and dancers, but when the clock strikes 12, Cinderella runs away.

Scene 4 takes place outside in the village. A picnic is interrupted by the prince trying to find his bride. The story has a happy ending when the slipper fits Cinderella.

Characters are listed in order of their first appearance on stage.
